I would like to be a member.
 I am enclosing \$ _____.

For Credit Card Payment Only* Phone _____
 Visa MasterCard CC Number _____
 Expiration Date ____ Signature of card holder _____

*Fees quoted for Check/Money Order, A 10%, minimum \$5, service charge will apply.

INSTRUCTIONS FOR COMPLETING APPLICATION FOR REGISTRATION

Fill the application out neatly, **In Ink, No Pencil**. Print or type everything except the signatures.

When filling in the drawing and descriptions, go directly to the animal and examine it carefully for white markings. The animal's feet and legs must be washed and every white marking listed, no matter how small, even on grey animals.

Give all dates complete, Day, Month, and Year. Give all addresses complete, including street, rural route, box number, etc., city, state and zip code.

Line 1 Sex - Give the sex as: Mare, Stallion or Gelding, if gelded, we need the gelding date.

Line 1 Name - limited to 30 characters and spaces. **DO NOT USE ANOTHER BREEDER'S REGISTERED NAME**. If you use a registered name anywhere in the name of your horse, we must simply remove that part of the name which is registered.

Line 2 Foaling Date - Give month, day and year which the foal to be registered was born.

Line 3 Color - Check the color carefully, especially when a horse may be grey. Black horses do not turn grey, but grey horses nearly always appear black at birth. Grey horses usually have a least a few white hairs above the eyes or in the forehead. Grey horses should be registered as grey, whether they have one white hair or are completely white with age. When a horse is registered incorrectly, in color or description, the pedigree must be rewritten to correct the error. The applicant for registration is responsible for the rewriting fee, regardless of the age or current ownership of the horse.

Line 4 Description - List all white markings on line 4, as instructed on the application. You must wash all four feet and list all white markings, no matter how small. These markings must be also designated by filling in solid with ink, all white areas on the drawings. White on feet must be shown on both inside and outside if it is there, complete both drawings. **Left and Right** - In describing the horse always designate the horse's left and right side, not your left and right when facing the horse, see drawing.

Line 5 Bred By - The breeder is the owner of dam at the time of service for the production of the foal being registered. Give complete address of the breeder if you know it.

Line 6 Present owner of Dam - The person who owns the dam when you are applying for registration of the foal.

Line 7 Sire and Dam - Give the full name and registration number of both the sire and dam. Always use the American registration number, if American registered. ***Sire must have DNA markers on file with Percheron Horse Association of America.***

Line 8 Date - This is the date the application for registration is completed and/or mailed to the Association.

Line 8 Signature - The application must be signed by the first owner, (owner at foaling), and mailed by that first owner to the office of the Association. **Please do not print your name as a signature!**

Line 9 Address - Give the complete address of the applicant.

Line 10 Method of Breeding - Designate either Natural, Artificial breeding on farm, Shipped Semen, or Embryo Transplant, check the method used.

Line 11 Breeding Date - Give the breeding date, Month, Day and Year, for the production of the foal to be registered. When pasture breeding is used, you must give the date the dam was put with the stallion and the last date she was with the stallion, example: Pasture bred, March 2, 2000 to July 23, 2000.

Line 11 Stallion owner's Signature - This is the signature of the person who owned or leased the sire of the foal to be registered, at the time the dam was served. If you purchased the dam after she was served for this foal and this breeding was recorded as required on the application for transfer and certificate of pedigree for the dam, the stallion owner's signature is not required on this application.

NEW DNA POLICY ~ All Percheron females registered by this Association, from applications received after December 31, 2007, must be DNA typed and matched with its sire before the registration is completed and a certificate of pedigree is issued. You will simply complete the application for registration as before and include the new fee, (regular fee plus \$50) after December 31, 2007. When we receive your application, we will apply for, print and mail you a bar coded envelope, addressed to the lab, with instructions to pull the hair and mail to the University. You will also sign a form and return it to the Association. We will then, in usually two weeks or less, receive the report from the lab. We can then, provided all matches are correct, proceed with the registration as before.

Membership ~ If you are a nonmember and would like to become a member, you can print a membership application from our web page, under forms at: www.percheronhorse.org. Send this along with your registration or transfer applications. This will allow you to pay the member rate on your registrations and transfers.
